FEATURES & BENEFITS

CO-CS (Computer Optimized Component System)

Maximizes tire performance by optimizing the appropriate combination of tread design, casing shape, materials, and construction.

O-BEAD

Improves uniformity and ride comfort through use of a single continuous strand of cable in the bead construction

LL CARBON (LONG LINK)

Helps improve tread wear and resist cracking, chipping and tearing through the use of a special long length carbon structure

Silica

Improves traction in wet conditions by increasing flexibility of tread compound
