

COOPERTIRES

An optimum flat tread profile gives the **Cobra Radial G/T** increased tyre-to-road contact for superb performance, handling and treadwear. The directional tread pattern disperses surface water quickly for excellent wet traction. S and T speed rated to 112mph (180 km/h) and 118mph (190km/h) respectively.

M+S RATED

Cobra Radial G/T

- Performance Tread:** Increased tyre-to-road contact which leads to improvements in treadwear and handling.
- Flat Tread Profile:** Optimum footprint shape helps distribute the vehicle load improving handling and overall wear.
- S/T-Speed Rated All-Weather:** Matches the performance requirements of today's equipment needs.
- Fitment:** The Cobra G/T is popular on American 'muscle cars' who still want to retain the characteristic 'look'.

RATING	KM/H	MPH	RATING	KM/H	MPH	RATING	KM/H	MPH
