

**Snow
Master
W601**

- ❖ Wide lateral grooves and circumferential blocks improve braking performance on snow and ice.
- ❖ Z - shaped multi sipes improve handling performance on snow and ice.
- ❖ V - shaped tread design on the inner side minimises noise and improves comfort.
- ❖ Circumferential 3 wide grooves provide excellent water drainage and improve aquaplaning significantly.
- ❖ Full silica tread compound remains flexible even at very low temperatures and ensures superb braking and handling on snow and ice.
- ❖ Improve lateral stability, resulting in high speed stability and uniformity for smoother ride.
